EDUCATION

Wake Technical Community College   **Jan. 2023 - Present**
Associate in Engineering

EXPERIENCE

Ervin Cable Construction   **Jun. 2024 – Jul. 2025**
Field Dispatcher (Full-Time)   *Remote*

- Execute critical tasks and generate accurate reports, ensuring compliance with company and regulatory standards.
- Coordinate with 40+ stakeholders daily to ensure seamless project execution.
- Optimized technician workload distribution to enhance efficiency.
- Utilized dispatch software by salesforce to track and manage assignments.

PrintClip   **Sep. 2020 – Jun. 2024**
Online shop owner   *Remote*

- Provided customer service in online retail, ensuring prompt assistance and effective issue resolution.
- Analyzed sales, customer behavior, and market trends to enhance store performance.
- Handled budgeting, pricing strategies, and financial tracking to ensure profitability and growth of the online store.

JAAMWays   **Jul. 2024 – Present**
Co-founder (Software engineer)   *Remote, US*

- Designed and implemented intuitive front-end UI/UX components using SwiftUI to improve user engagement.
- Developed and deployed new app features based on user feedback and product requirements.
- Collaborated on backend integration using Firebase for data storage, authentication, and real-time updates.
- Supported agile development and product planning as a co-founder.

SOFTWARE DEVELOPMENT PROJECTS

Tripure | *Swift, SwiftUI, UIKit, MapKit, Nuke, Git, Firebase, RAG*   **Aug. 2024 – Present**

- Created dynamic, user-friendly views with Swift, SwiftUI, and UIKit to enhance user experience.
- Used MapKit to implement in-app trip navigation with real-time directions and route visualization
- Integrated RAG via Firebase to enrich LLM prompts with contextual data, improving response relevance by ~30% based on user testing

CERTIFICATIONS

META iOS Developer   **Jan 2024 – Jul. 2024**
Google IT Support   **Jun. 2024 – Aug. 2024**
Nvidia AI Infrastructure and Operations Fundamentals   **Aug. 2024**

Technical Skills
